

## ENZYME DIGESTANT

### PRODUCT USES

Enzyme formulation whose organisms digest and liquify oils, foods, fats and grease which clog and contaminate grease traps and drain lines. New and improved version introduced in June 2010.

### OPERATOR BENEFITS

- Safe on sinks and drains.
- Special bacteria cultures digest organic waste.
- Contains no harmful acids, solvents, nor caustics.

### DIRECTIONS FOR USE

**General Odor Control:** Eliminate blood, urine, smoke and feces in areas as garbage cans, waste receptacles, locker rooms, carpet, etc. Spray product directly on malodor and allow the bacterial action to digest the material while the pleasant fragrance immediately neutralizes the odor.

**Grease Traps:** For traps less than 20 cubic feet capacity, add 4-5 oz. of product daily, by pouring in a sink or pipeline closest to the trap. This should be done at night or when the traps are used the least. Flush with a cup of lukewarm water. For grease traps larger than 20 cubic feet, add 8-10 oz. daily using the same procedure.

**Drain Lines & Down Pipes:** Use product a minimum of 2 times weekly, to a maximum of 4 times. Add 4 oz. of product for each 2 inches of pipe size
